(650) 303-0824

Digital Producer with 15+ years of experience delivering web and app experiences for Google, Apple, Airbnb, OpenAI, and leading agencies. Specializes in global launches and end-to-end digital production—from discovery, UX, and design through development, localization, QA/UAT, accessibility, and launch. Connects creative, technical, and cross-functional teams to move complex projects from scope to delivery, with hands-on experience in Contentful and AEM and AI assisted production workflows using ChatGPT and Codex.

Experience

Web Producer • OpenAI

Apr 2026 – Jun 2026 | Contract

- Led end-to-end web production and content publishing across OpenAI.com and ChatGPT.com for product, research and customer launches.
- Oversaw day-to-day project management including task assignment, progress tracking and quality control.
- Facilitated meetings; demo reviews, approval meetings with cross-functional stakeholders.
- Managed and/or partnered with cross-functional teams consisting of creatives, developers, strategists, and other specialists as needed.
- Built, QA'd, and published Contentful landing pages and custom components, using GPTs to accelerate implementation and identify content, link, copy, SEO, accessibility, and responsive breakpoint issues before launch.
- Built and supported Marketo forms and intake workflows for campaign and web experiences.

Creative Producer Lead • Airbnb

Nov 2024 – Apr 2025 | Contract

- Led production of Airbnbn's new product release "Services" across web and mobile, connecting content, motion, design, UX and engineering workstreams.
- Built integrated production plans and drove feedback, reviews and approvals across creative, legal, localization, product and engineering teams.
- Coordinated domestic and international delivery requirements, balancing creative quality, technical constraints, timelines, and release readiness.
- Coordinated domestic and global tiered delivery, including accessibility, localization and QA planning for motion-rich digital experiences.

Senior Digital Producer • Apple

Apr 2024 – Nov 2024 | Contract

- Managed concurrent Apple Store app initiatives covering navigation enhancements, gifting, India expansion and new feature experiences.
- Coordinated design, UX, engineering, business marketing, legal, localization and vendors to translate requirements into app and web deliverables.
- Led creative reviews, documented requirements, managed dependencies and drove UAT/QA across complex customer flows.

Digital Producer • Google Store

Nov 2019 – Aug 2021 | Contract

- Produced Google Nest product launches from scope through launch, managing schedules, custom and templated CMS builds, QA/LQA and release coordination.
- Partnered with design and engineering on CMS landing pages incorporating WebGL, CSS transitions, image sequences and scroll-based animation.
- Managed concurrent projects, global localization and launch readiness; communicated risks, priorities and launch decisions to cross-functional leads.
- Supported global localization and quality assurance for customer-facing Google Store experiences.

Senior Digital Producer • R/GA

Mar 2018 – May 2019 | San Francisco, CA

- Owned scopes, budgets, schedules, resourcing and delivery for digital platforms and campaigns for Google and BlackBerry/Cylance.
- Led integration of 65+ static AEM modules for Cylance's IPO website, coordinating global internal and external teams.
- Ran scrums, sprint planning, retrospectives and QA/UAT; managed risks, client communication and post-launch maintenance planning.
- Managed client communication and post-launch maintenance planning across complex CMS-driven programs.

Senior Project Manager • Google

Feb 2017 – Mar 2018 | Mountain View, CA

- Led Android.com new-product release production and Chrome.com migration efforts spanning 200+ legacy pages and global launch requirements.
- Coordinated design, development and QA teams to implement updated frameworks, code libraries and automated testing workflows.
- Managed A/B testing rollouts, performance reporting, budgets, risks and stakeholder recommendations for experience improvements.

Digital Producer • Goodby, Silverstein & Partners

Oct 2011 – Jun 2012 | Full-time

- Partnered with account, creative, strategy, and technical teams to deliver integrated digital campaigns, including standard and rich media banners, proofs of concept, and microsites—for brands such as Got Milk?, Adobe, Dickies, Nest, and Sonic.
- Managed project milestones, budgets, risks, and day-to-day delivery across internal teams and external partners.
