(650) 303-0824

Digital producer with 10+ years of experience bringing complex web, app, and integrated marketing initiatives to life for some of the world’s most recognized technology and consumer brands. Skilled at shaping project direction, connecting creative and technical teams, and guiding work from early concept through launch. Known for strong cross-functional leadership, and delivering polished digital experiences on time and at scale

Experience

Web Producer • OpenAI

Apr 2026 – Jun 2026 | Contract

- Manage end-to-end web production and content publishing across OpenAI.com and ChatGPT.com for high-visibility product, research, and customer launches.
- Build, QA, update, and publish Contentful entries and pages; validate content accuracy, component behavior, accessibility, localization readiness, and launch requirements.
- Coordinate reviews, approvals, and dependencies across engineering, product marketing, research, communications, design, and production partners.
- Use Codex and ChatGPT to accelerate Contentful page builds, content implementation, production troubleshooting, and JSON-based research-chart development.
- Build and support Marketo forms and intake workflows supporting campaign and web experiences.

Creative Producer Lead • Airbnb

Nov 2024 – Apr 2025 | Contract

- Led end-to-end production for complex host landing page experiences across web, mobile, motion, design, UX, and engineering workstreams.
- Developed integrated production plans, managed stakeholder feedback, and drove reviews and approvals across creative, legal, localization, product, and engineering teams.
- Coordinated domestic and international delivery requirements, balancing creative quality, technical constraints, timelines, and release readiness.
- Directed accessibility, localization, and QA planning for interactive and motion-rich web experiences.

Senior Digital Producer • Apple

Apr 2024 – Nov 2024 | Contract

- Managed multiple concurrent Apple Store app initiatives, including app navigation enhancements, gifting, India expansion, and new feature experiences.
- Coordinated designers, UX, engineering, business marketing, legal, localization, and vendors to translate requirements into production-ready app and web deliverables.
- Led creative reviews, documented requirements, managed delivery dependencies, and drove UAT/QA across complex customer flows.

Digital Producer • Google Store

Nov 2019 – Aug 2021 | Contract

- Produced end-to-end Google Nest product launches, including scoping, schedules for custom and templated CMS builds, QA, LQA, and launch coordination.
- Partnered with design and engineering to implement WebGL, CSS transitions, image sequences, and scroll-based animation within CMS-driven landing pages.
- Managed concurrent projects and communicated status, risks, priorities, and launch decisions to cross-functional leads and senior stakeholders.
- Supported global localization and quality assurance for customer-facing Google Store experiences.

Senior Digital Producer • R/GA

Mar 2018 – May 2019 | San Francisco, CA

- Owned scopes, budgets, schedules, resourcing, and delivery for digital platforms and campaigns for clients including Google and BlackBerry/Cylance.
- Led integration of 65+ static modules in AEM for Cylance's IPO website experience, coordinating a global team of internal and external partners.
- Ran daily scrums, sprint planning, retrospectives, QA/UAT, and risk mitigation to improve team delivery and project quality.
- Managed client communication and post-launch maintenance planning across complex CMS-driven programs.

Senior Project Manager • Google

Feb 2017 – Mar 2018 | Mountain View, CA

- Led production for Android.com new-product releases and Chrome.com migration efforts spanning 200+ legacy pages and global launch requirements.
- Coordinated designers, developers, and QA partners to implement updated frameworks, code libraries, and automated testing workflows.
- Managed A/B testing rollouts, performance reporting, risks, budget, and stakeholder recommendations for continuous experience improvement.

Senior Digital Producer • Argonaut Inc.

Aug 2015 – Feb 2017 | San Francisco, CA

- Led production teams delivering digital campaigns and web experiences for Cricket Wireless, Brookside Chocolates, EA Sports, Appleton Estate, and MetLife.
- Partnered with creative, development, UX/UI, and account teams to manage project workflows, quality, deadlines, and client expectations.

Digital Producer • Goodby, Silverstein & Partners

Oct 2011 – Jun 2012 | Full-time

- Partnered with account, creative, strategy, and technical teams to deliver integrated digital campaigns, including standard and rich media banners, proofs of concept, and microsites—for brands such as Got Milk?, Adobe, Dickies, Nest, and Sonic.
- Managed project milestones, budgets, risks, and day-to-day delivery across internal teams and external partners.
